## Bridge Humor from Eddie Kantar...

The real test of a bridge player isn't in keeping out of trouble, but in escaping once he's in it. -Alfred Sheinwold

Bridge is essentially a social game, but unfortunately it attracts a large number of antisocial people.
One advantage of bad bidding is that you get practice at playing atrocious contracts. -Alfred Sheinwold

South: Alert! East: Yes? South: I'm requested to further misdescribe my hand.
It's not the handling of difficult hands that makes the winning player. There aren't enough of them. It's the ability to avoid messing up the easy ones. -S. J. Simon
The sum of all technical knowledge cannot make a master bridge player.
-Ely Culbertson.
The difference between genius and stupidity at the bridge table is that genius has its limits.

I'm not sure whether glory or masterpoints is first on the list of beginning tournament players, but I know learning to play better is definitely last.
-Moi.
Regardless of what sadistic impulses we may harbor, winning bridge means helping partner avoid mistakes.
-Frank Stewart
A player who can't defend accurately should try to become declarer (or dummy).
-Alfred Sheinwold
Learn from the mistakes of others. You won't live long enough to make them all yourself.
-Alfred Sheinwold.
I favor light opening bids. When you're my age, you can never be sure that the bidding will get back around to you again. Oswald Jacoby at 77.
We had a partnership misunderstanding. I assumed my partner knew what he was doing.

My partner is 20 years behind the times. he still thinks you need high cards to bid.

Your play was much better tonight and so were your excuses.

## Hospitality Suite Information

The hospitality suite for the 2014 USBC will be the Kayenta Suite (room 2052). Our wonderful hostesses, Lisa Berkowitz and Molly O'Neill will make the "trek" to Phoenix to welcome you to tihe Hospitality Suite during the tournament. Because the hotel serves breakfast every morning, we will not be serving breakfast in the hospitality suite. Please join us for:

Lunch on Sunday-Sunday from 2:30-4:00.

Vugraph, casual chit chat, drinks \& snacks during the rest of the playing hours and for a short time after the end of the day.

As we have the last two years, we will also have a "Players' Break Room" (aka Jan's office) near the playing rooms from Tuesday on. We will have coffee, soft drinks and some snacks available in that room while you wait for your slow
 teammates to finish playing.

Molly and Lisa invite you to room 2050 during the play for snacks and sodas. Your team captains have the key... and they add that your cooperation in tossing your trash is much appreciated.

East/West are playing a strong club system. East has shown 17-20 high card points and West, dummy, has shown four spades and a balanced hand.

You are sitting North. Partner leads the spade eight, top of three small or second from 98xx. When declarer plays low from dummy, do you win or duck? If you win, what do you do next?

Let's say you win the queen and East follows with the nine. Assuming you shift to a minor, which one do you play and which card do you select and why?
^ AQ 7

- 963
- JT64

At the table North played a diamond - which would have sufficed had South turned up with four diamonds to the king, or the diamond ace. Not good enough today, as you can see.

You mundanely lead a top club and continue the suit. Let's take two scenarios. The first is that the club king holds as declarer pitches a diamond and partner gives suit reference with the lower of his remaining club spots.

The second is that declarer ruffs and leads the heart king. Win or duck? And what next if you win?

|  | ค 6 |

| 4S can be defeated in either scenario -but nether defense is exactly crystal clear. | - 9732 |

In the first case you must play a third top club to force declarer. Then if you duck the first heart, declarer cannot draw trumps or he is cut off from the hearts.

He cannot play on hearts or he runs into a ruff. the same dilemma.

## On to the Knockout Stage...

I had an interesting conversation with Eddie Wold and David Granger at the Regional in Lake Geneva. Eddie was explaining how of late, top players and partnerships strive to play in 3NT as opposed to four of a major in IMPs. When one side holds 25-30 HCP with no unstopped suit, 3NT is a likely make.

This hand is a prime example of just how effective this is.
In the Open Room, Robinson and Boyd bid to a "normal" four hearts on their 6-3 fit. It is a good contract that took a club ruff to defeat. With Lair on lead, the club ruff would have been automatic. Gu did well to lead his club four and catch his partner with the club ace/king.

There was nothing to the defense once the club lead hit the table... club, club, club ruff, and a diamond to the ace... down one before North/South even gained the lead.

In the Closed room, Cheek bid 3D over 2D showing a desire for game and leaving no-trump in the picture. Bertens bid 3NT on his Q92 and made five when it went club ace followed by a switch to the diamond jack. Bertens won the diamond in dummy with the king and knocked out Garner's club king. Garner knew it was hopeless to cash the top diamond so he continued with clubs. In point of fact, no matter what West leads against 3NT, North/South will always come to nine tricks and 13 IMPs.

hearts, his longest suit.

| :--- | :--- | :--- | :--- |
|  | 1 H | Pass | 1 S |
| Pass | 2 H | Pass | 3NT |
| All Pass |  |  |  |

Five boards later, this hand arose and once again Cheek and Bertens disdained their heart fit ( 8 cards this time) to play in 3NT. And once again it worked for them.

Garner led the diamond deuce to Smith;s king and Bertens' ace. Bertens led a club to dummy's queen and finessed the spade queen, losing to Garner's king. Garner continued his attack on diamonds and Bertens collected two diamonds, four clubs, and three spades to bring home nine tricks, without ever touching

In the Open Room, once again Robinson/Boyd played in four hearts. Gu led the spade seven to Lair's king and Lair continued the suit. Robinson misguessed hearts, playing for Ax in either hand. In the end he lost two hearts, one diamond and one spade for down one and a loss of 10 IMPs.

After 37 boards，the Sherman／Koneru match was tied at 77－77．
On board 38，Passell and Jacobus had an excellent auction to reach six diamonds in the Closed Room．Jacobus opened an aggressive one diamond showing either a distributional hand or a balanced minimum．Once Passell discovered that Jacobus had both diamonds and spades，he established diamonds as trump and went slamming by bidding four clubs over three no－trump．Jacobus jumped to five diamonds and squelched Passell＇s hopes of a grand．Passell bid six diamonds and Jacobus brought it home．

Woolsey led the spade king which was trumped in dummy．
Jacobus cashed the king／queen of diamonds and banked on no worse than a 4－2 break in hearts．He played the heart ace and trumped a heart high in his hand．He drew the last trump and claimed．

Notice that had hearts been 5－1，the slam could still make if the club jack falls doubleton．
In the Open Room，Koneru passed in first seat and diamonds were never bid．While stylistically Koneru did not have an opener，it is curious that he did not bid a natural two diamonds over partner＇s third seat one heart bid．
（Ed．note：Based on Koneru／Krekorian＇s online convention card，it does not appear that two diamonds would have been artificial．）

Krekorian jump shifted to three clubs and the partnership settled in four hearts．
The play in four hearts was routine and Krekorian collected eleven tricks but lost 12 IMPs．

## Puzzle Page ...

With spring in the air, everyone's starting to think about spring clean-up so Jeff spent all week after school and all weekend doing odd jobs around the neighborhood to earn some spending money. He tilled gardens, raked leaves, cleaned up tree limbs, pruned hedges, and even spent one afternoon babysitting! Each day he worked for a different neighbor on a different chore. He charged each neighbor a reasonable rate for his work, but sometimes he got tips too. By the end of the week, he was quite pleased with the amount that he'd earned and each of the neighbors was pleased with the quality of work that he'd done. Determine the last name of each neighbor, what chore Jeff completed for each neighbor, what day of the week Jeff worked for each neighbor, how long each task took him ( 2 to 4 hours), and how much he earned for each task (\$20 to $\$ 36$ ).

1. Jeff helped Mrs. Agnew till her garden but it didn't take him 4 hours. Mr. Summer didn't need help on Thursday.
2. He spent an extra hour working on Thursday than he did on Wednesday but he wasn't pruning hedges on either day.
3. On Sunday, he earned $\$ 8$ more than he did when the day he was babysitting, which earned him $\$ 4$ more than he earned from Mr. Compton.
4. Jeff made $\$ 20$ from the job he spent 2 hours doing, which wasn't removing tree limbs.
5. Mr. Numen, who didn't ask him to rake leaves, paid him $\$ 32$ but it didn't take him 3 hours. The job on Friday for Mrs. Fields took less time than the garden tilling job.
6 . The hedge pruning job took him 3-1/2 hours to complete, a half hour longer than the job he did on Thursday. Jeff made $\$ 36$ from the job he spent 4 hours doing, which was on Saturday.
